

TAIGA

Your
natural
workspace

Taiga. Your *Natural* Workspace

At Taiga, we believe that work should feel less like work and more like a natural and rewarding experience. That's why we create artfully crafted, distraction-free workspaces that bring the quiet, calming and restorative effects of nature into the workplace. We make employee well-being the driving force in workplace design by using real, sustainable, Nordic materials. With Taiga, you can transform your workplace into a peaceful, aesthetically pleasing environment that inspires – a place where everyone can recharge, focus and thrive.

Artfully crafted *Lohko Workspaces*

TAIGA

Timeless design
for modern offices.

Taiga's workspaces are a testament to timeless design. Marked by clean lines and a minimalist essence, they stand the test of time, in both durability and trends. Functionality merges seamlessly with the design, offering user-friendly plug-and-play units that are intuitively accessible. Taiga's design maximizes spatial efficiency, embracing a spectrum of sizes, accessories and modular configurations. Rooted in a designer's perspective, these elegant spaces embody user-centric simplicity.

Designed by
***Pekka
Eskelinen***

“The starting point was Scandinavian simplicity and the desire to create a product portfolio that offers timeless design and space. The result was a refined and simple concept, drawn out of Nordic nature and its silence.

Like many Scandinavians, I experience the greatest sense of freedom when I am connected with nature.

There isn't a more relaxing environment than a forest snow-covered or a still lake in the summertime. The connection to nature prevails in every design. That is what makes Taiga Concept so unique.”

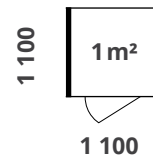

Lohko Box

The original nature-inspired soundproof workspaces. Lohko Boxes are thoughtfully designed office pods and booths for private work, coworking and meetings. From the essential office phone booth to a spacious 6-person meeting booth, Lohko Box is your go-to distraction-free modular space solution, bringing nature to your work environment in uncompromised simplicity.

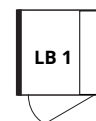

Lohko Box¹

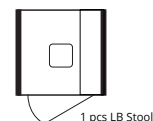

Soundproof office phone booth for private phone calls and remote meetings. A convenient way to reduce distractions and bring harmony to a noisy office.

Companies *in Harmony* With Taiga

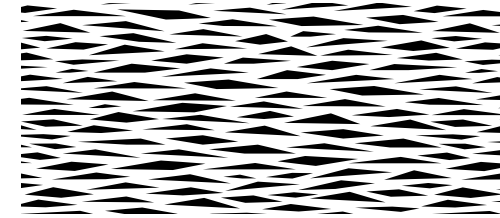

Our client base spans industry leaders and smaller workplace settings. From expansive projects to minimalist spaces, our mission resonates with many: elevating productivity, creating serene environments, and ensuring that every workspace is a haven for growth. Our goal is to understand the unique situations of each client and offer the optimal solution. We achieve this through our strong desire to serve and our capability to create beautiful, customized solutions.

Why Taiga ?

Natural Workspace

Timeless Simplicity

Customer Centric

Taiga embodies a profound **connection to the natural world**. The genuine warmth of wooden veneers fosters a sense of authenticity, inviting comfort and well-being. Every design element, from cozy acoustics to pleasant lighting, is carefully considered to uphold the natural feel of the product. This ensures a harmonious synergy of form and function. Glass walls on both sides further enhance this experience, creating a comfortable and natural sense of space.

Taiga's workspaces are a **testament to timeless design**. Marked by clean lines and a minimalist essence, they stand the test of time, in both durability and trends. Functionality merges seamlessly with the design, offering user-friendly plug-and-play units that are intuitively accessible. Taiga's design maximizes spatial efficiency, embracing a spectrum of sizes, accessories and modular configurations. Rooted in a designer's perspective, these spaces embody user-centric simplicity that avoid overwhelming complexity.

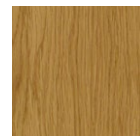

Our **customer-centric and collaborative approach** is at the heart of everything we do. This extends to a workspace solution that is not only timeless, but customizable to adapt to the unique aesthetics and needs of any given environment. From various veneer and upholstery options to furniture and accessories that allow for the creation of various activity zones and layouts. In addition to our many configuration choices, we have strong expertise in crafting novel tailored solutions.
