## THE CLEANEST AIR FROM THE NORDICS

Inspired by our strong connection to refreshing Nordic Nature, we have brought advanced air purifying technology, LOHKO PURE into our workspaces.

Lohko Pure provides a touch of fresh Nordic air to your office. It removes particles and impurities from the air automatically and unnoticeably. As a result, you are left with pure Nordic freshness, allowing you to utilize your natural workspace to the fullest.

## AIR PURIFIER FOR LOHKO PRODUCTS

Have you noticed how fresh the air feels after a thunderstorm?  
This Nature's purification process destroys microbes and bacteria from the air and increases the level of ions, resulting in extremely fresh air.

We have now brought this Nature's purification method into our workspaces. Lohko Pure destroys viruses, bacteria, and dust particles, reduces pathogens on surfaces, and removes unpleasant odors. It ensures top-quality air and a refreshing work experience.
